Why: Tribal/Community Member Input for Transportation Safety Plan

Greetings:

You are invited to bring your comments and concerns to the table to be included in the development of the Bear River Band of Rohnerville Rancheria Tribal Transportation Safety Plan.

Our goal is to take the information we already know and combine it with your input to create a safer environment for vehicle, pedestrian and bicycle traffic. As our community grows with more families in the residential area and more tribal enterprises across the street we must be mindful that traffic will increase. With the increase in traffic it is very important to always put safety first.

We look forward to seeing you at the forum and getting your input.

Sincerely,  
Bear River Transportation Department, Roads Department and Administration
